## PCI DSS v4.0 Attestation of Compliance for Report on Compliance – Service Providers

**Entity Name: WisePay Limited** 

Assessment End Date: 03-Sep-2024

Date of Report as noted in the Report on Compliance: 06-Sep-2024

### Section 1 Assessment Information

#### Instructions for Submission

This Attestation of Compliance (AOC) must be completed as a declaration of the results of the service provider's assessment against the *Payment Card Industry Data Security Standard (PCI DSS) Requirements and Testing Procedures ("*Assessment"). Complete all sections. The service provider is responsible for ensuring that each section is completed by the relevant parties, as applicable. Contact the entity(ies) to which this AOC will be submitted for reporting and submission procedures.

This AOC reflects the results documented in an associated Report on Compliance (ROC). Associated ROC sections are noted in each AOC Part/Section below.

Capitalized terms used but not otherwise defined in this document have the meanings set forth in the PCI DSS Report on Compliance Template.

Part 2b. Description of Role with Payment Cards (ROC Section 2.1)						
Describe how the business stores, processes, and/or transmits account data.		Entity provides a payment interface to parents to make purchases from their child's school. The payment interface is accessed via a presented payment page accessible using a common web browser over a TLS 1.2 connection. The present payment page is a presentation of a supported payment processor's interface that is displayed via an iFrame or a full redirect. Once a parent manually enters their CHD and submits the request, the CHD is sent directly to the processor, bypassing the entity's environment. The entity does not store protect or sensitive CHD.				

Describe how the business is otherwise involved in or has the ability to impact the security of its customers' account data.	Entity provides a payment interface to parents to make purchases from their child's school.
Describe system components that could impact the security of account data.	Full application environment within Azure cloud hosting centers.

#### Part 2c. Description of Payment Card Environment

Provide a high-level description of the environment covered by this Assessment.

#### For example:

- Connections into and out of the cardholder data environment (CDE).
- Critical system components within the CDE, such as POI devices, databases, web servers, etc., and any other necessary payment components, as applicable.
- System components that could impact the security of account data.

Assessment reviewed the environment to include the network deployed at the co-location facilities and in the corporate office, access by entity to the facility from the office locations, and connectivity to and from supported processors. In addition, the development and management of systems and the internal applications were reviewed.

Indicate whether the environment includes segmentation to reduce the scope of the	☐ No
